General Public Discussion
There was no public in attendance. Mr. Schwemm made a motion to close the public portion of the meeting, second by Mr. Pfrommer, all voted yes.
Engineer – The written engineer’s report is attached and is a part of these minutes.
Mr. Polistina provided a brief update on the three potential capital projects to be accomplished with funds through the New Jersey Infrastructure Bank. These projects being Searstown pump station relocation, Bevis Mill pump station rehabilitation, and the FAA pump station relocation.

Treasurer
~ Resolution #16 – 2020 [Operating Account Bill List]
Motion Mr. Schwemm, seconded by Mr. Pfrommer to approve the February bill list for the Operating Account. All voted yes.

~ Resolution #17 – 2020 [Developer Account Bill List]
Motion Mr. Schwemm, seconded by Mr. Pfrommer to approve the February bill list for the Developer Account. All voted yes.

The Treasurer’s report, provided by Mr. Schwemm, was accepted by the Authority.

Administrative
Mr. Schwemm motioned to approve the January 2020 minutes. This was seconded by Mr. Pfrommer and all voted yes.

~ Resolution #18 – 2020 [Adjustments]
Motion made by Mr. Schwemm, seconded by Mr. Pfrommer to approve the January 2020 account adjustments. All voted yes.

The Hazard Communications Policy has been in place since 2005. Periodically it needs to be reviewed and updated. The revised policy, which details the handling and processing of hazard chemicals and the state’s Right to Know program, has been reviewed by Mr. Ridgway. Mr. Schwemm made a motion, seconded by Mrs. Prendergast to adopt the revised Hazard Communications Policy. All voted yes.

The Authority’s insurance carrier has required the local adoption of the Domestic Violence Policy. They provided the template that had been reviewed and approved by the Civil Service Commission. Mr. Ridgway reviewed the final draft of the policy which was presented for approval. A motion was made by Mr. Schwemm, seconded by Mr. Pfrommer, to adopt the Domestic Violence Policy and in doing so, appoints the Authority Clerk, Elaine Super, as the Primary Human Resources Officer and the Authority Solicitor, John Ridgway, as the Secondary Human Resources Officer. All voted yes.

The new computers have been installed and all are working well. The scanners and validators used to process payments are old, some being purchased as far back as 2004. These should be updated to work more efficiently with the updated computers. Mr. Schwemm made a motion, seconded by Mrs. Prendergast, to purchase the necessary equipment. All voted yes.

Mr. Ridgway provided a report on the on-going legal issue with the Authority’s attempt to recoup expenses from damage to the Authority’s system at 129 Wedgewood Drive in March 2019. The incident started as a backup call to which the Authority responded. It was determined that the blockage was on the property owner’s side of the sewer cleanout and the
homeowner’s plumber was unable to relieve the blockage. A second contractor was called by the homeowner to assist, which resulted in the Authority’s cleanout being exposed and damaged, the sidewalk, storm drain pipe, sidewalk and gutter were also damaged. The Authority Engineer dispatched the Authority’s contractor, Kline Construction, to stabilize the situation, make the necessary repairs and reestablish a connection for the property owner. The expenses incurred by the Authority in response to the damage to the Authority’s system are $30,000.00, not including the Authority’s legal costs. Over a period of seven months, the Authority Solicitor has attempted to communicate with the contractors in an effort to identify their insurers and reimburse the Authority for costs incurred. All attempts have been unsuccessful.

It was agreed that the contractors would be given a final opportunity to respond and failure to do so would prompt litigation against them by the Authority. The contractors were provided a final notice and ten days to respond to the Authority in order to avoid litigation. Since no responses have been received within the required time, and having exhausted all other efforts to resolve the matter amicably, Mr. Schwemm made a motion, seconded by Mrs. Moschetto, to authorize the Authority Solicitor to file the necessary documents to start the litigation process. All voted yes.

A motion to adjourn the meeting was made by Mr. Schwemm, seconded by Mrs. Prendergast at 5:50 PM. All voted yes.

Engineer's Report  
Egg Harbor Township MUA  
February 18, 2020

**Engineering Projects**

1. **Emergency Maintenance Contract**

Arthur Henry completed the replacement of a malfunctioning air relief valve along the Brenta station force main last month. They also made a repair to the discharge manhole receiving the Anchorage Poynte force main.

We are waiting for the submission of the billing invoices for the completed work.

2. **ACUA Contract Administration**

The ACUA maintenance reports have been normal over the past month. There is currently one station operating with a single pump. Pump No. 1 was removed from the Whitewater station and sent to AC Schultes to obtain a repair quote.

Pump No. 1 from the Dogwood station was not pumping and was removed from service last month. A smaller spare pump was temporarily placed into service. The pump was sent to AC Schultes to determine the repair cost. We have also investigated two possible replacement options due to the age of the pump.

We are also waiting for the ACUA to complete a confined space entry to determine why a pump at the Old Zion station does not seat properly.

3. **Wet Well Cleaning Contract Administration**

Caprioni Family Septic completed the normally scheduled basket and wet well cleanings over the past month. We had Caprioni complete preventative maintenance line jetting at various locations selected by the Authority Operator. Caprioni assisted Arthur Henry during the replacement of the air relief valve along the Brenta station force main. They also provided bypass pumping service while the Godwin pump was out of service for a few hours.

Caprioni completed maintenance jetting in Linwood and cleaned four wet wells in the Linwood system.

We have recommend a payment in the amount of $14,624.70 from the Operating Account for the work completed in January.
4. **Spills**

The Authority experienced a sewer spill at 3393 Bargaintown Road, which resulted in less than 100 gallons being released. The overflow resulted from the accumulation of debris blocking the 8" gravity main. The Authority Emergency Contractor, Caprioni, was dispatched to clear the blockage and remove all residual wastewater. Lime was also applied to all of the affected areas.

5. **Miami Pump Station Elimination**

The Authority Clerk and a representative from our office met with personnel from NJOEM to discuss the open projects involving the Miami station last week. We discussed the two replacement options and the potential to increase the funding by combining open projects. They also discussed the possibility of increasing the funding through mitigation efforts. A follow-up meeting has been scheduled for this coming Friday morning to review their recommendations to maximize FEMA funding.

6. **2020 Video Inspection & Main Cleaning**

The contractor has completed the video inspection and cleaning of approximately 65% of the project. We expect all work to be completed by the end of the month.

We have recommended the final payment in the amount of $39,556.64 for the work completed to date.

7. **Country Aire Pump Station Upgrades**

We are expecting delivery of the replacement control panel later this month. We have placed the order for the replacement pumps with delivery expected within a month.

Once all the components are received we will arrange the installation of the upgrade components.

8. **2020 Lateral and Cleanout Repair**

A contract was awarded to Perna Finnigan at the last meeting. We held a preconstruction meeting with them earlier this month. We expect they will began work within the next week. They anticipate the project taking approximately one month.

No payments are due at this time.

9. **FAA Pump Station**

We will be forwarding the revised construction cost estimate and plans to the NJDEP Environmental Infrastructure Trust for review and approval later this month. Representatives from our office held a phone conversation with the Trust personnel last month and verified that the loan for the FAA can be combined with the temporary loans for the Searstown station relocation and Bevis Mill upgrade projects once processed.
10. **Searstown Pump Station Relocation**

Our office will begin the process of submitting the application for this project to the NJDEP EIT later this month. We will also need to obtain Pinelands Approval and a Treatment Works Approval for the proposed work.

11. **Bevis Mill Pump Station Upgrades**

We will begin the process of submitting the application for this project to the NJDEP EIT later this month. Since we are not proposing to change the pumping capacity of the station a Treatment Works is not required.

**Developer Projects**

**Extension Applications**

None.

**Connection Applications**

None.

**Change of Use Applications**

None.
